

GHSP MMOG / LE

Discover, Align, Deliver.
Worry Free.

GHSP
Solutions In Motion®

What is MMOG/LE?

- Materials Management Operations Guideline/Logistics Evaluation
 - Self-assessment and continuous improvement tool that improves materials management efficiency and accuracy while reducing costs from errors and waste
 - Meant to serve as the global standards for supply chain processes; common definition of materials best practices
 - Can be utilized throughout the entire product life cycle: product development/launch thru production thru aftermarket/service

Why MMOG/LE?

- ✓ Determines current level of plant performance
- ✓ Enables control of internal and external processes
 - Including but not limited to: reduced line interruptions, inventory carrying costs, premium freight, rework, lead times
- ✓ Allows for better control of the supply chain
 - Increased inventory visibility
 - Reduced supply chain risk
- ✓ Supports continuous improvement
- ✓ Increases customer satisfaction (and scores!)

What are GHSP's expectations?

1. As of January 2015, all GHSP suppliers are required to submit the MMOG/LE to GHSP on an annual basis as part of the suppliers' annual document submission
2. GHSP reserves the right to audit MMOG/LE scores by requesting supporting documentation or by conducting onsite reviews of the supplier facility
3. One MMOG for each supplier manufacturing facility
4. Honest self-assessments. Suppliers are not required to be certified at a Level A at this time. Execute the tool for your customers but utilize the tool for the betterment of your company.
